Diamond Infrastructure Solutions

Building the backbone of advanced manufacturing.

Mission Statement

Diamond is a U.S.-based infrastructure company strategically located in the Gulf Coast—the heart of U.S. manufacturing. Built on Dow's world-leading operational excellence, Diamond delivers best-in-class safety, reliability, and infrastructure services that empower customers to focus on their core business.

Core Services

- Infrastructure engineering and maintenance
- Facility operations support
- Capital project execution
- Reliability and safety consulting
- **Energy services**: power, steam, high-purity water, natural gas, industrial gases
- **Environmental services**: waste-water treatment, cooling and raw water, incineration
- **Logistics**: rail and marine coordination
- Emergency and site security, roads, bridges, and pipe racks

What Sets Diamond Apart

- Backed by Dow and Macquarie Asset Management—combining industrial expertise with global infrastructure leadership
- Delivers customer-first service through a proven model, supporting 70+ clients across five Gulf Coast sites.
- Offers more than 3,000 miles of pipeline and 23 storage caverns, enabling feedstock flexibility and diverse product mix
